

AMENDMENTS TO THE CLAIMS

1-14 (canceled)

15. (previously presented) A device comprising:

a display unit;

means for displaying a first screen on the display unit, the first screen displaying a plurality of selectable language options for selecting a display language; and

means for displaying a second screen with an option on the display unit, the option having a same appearance regardless of the display language currently displayed, wherein the first screen is displayed when the option is designated on the second screen.

16. (previously presented) A device according to claim 15, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

17. (previously presented) A device according to claim 16, wherein the predetermined language is English.

18. (previously presented) A device according to claim 15, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.

19. (previously presented) A device according to claim 15, wherein the second screen provides plural options for various device settings.

20-26 (canceled)

27. (previously presented) A display device comprising:

a display unit which displays a first screen with a plurality of selectable language options for selecting a display language and a second screen with an option, wherein the first screen is displayed when the option is designated; and

a control unit which controls the option to appear the same regardless of the display language currently displayed.

28. (previously presented) A display device according to claim 27, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

29. (previously presented) A display device according to claim 27, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.

30. (previously presented) A method of display comprising:

displaying a first screen with an option in a first display language;
displaying a second screen when the option is designated on the first screen, the second screen displaying a plurality of selectable language options for selecting a display language;
setting the selected language through the second screen as a second display language, the second display language being different from the first display language; and
displaying a third screen with the option in the second display language, said option having a same appearance as in the first screen although the third screen is displayed in the second language.

31. (previously presented) A display device according to claim 30, wherein the option is indicated in a predetermined language regardless of the display language currently selected.

32. (previously presented) A display device according to claim 30, wherein the option is indicated by a predetermined symbol regardless of the display language currently selected.

33. (Previously presented) A method for providing a display screen upon a user request, comprising:

providing a first screen for displaying a plurality of selectable language options for selecting one of a plurality of display languages;

providing a second screen pursuant to a selected display language, the second screen including an option for selecting the first screen, the option having a same appearance regardless of a selected display language.

34. (Previously presented) The method as claimed in claim 33, wherein the option displayed in the second screen is represented by a predetermined symbol.

35. (Previously presented) The method as claimed in claim 34, wherein the option displayed in the second screen is represented by a specific language regardless of the selected display language.

36. (Previously presented) The method as claimed in 35, wherein the specific language is English.
